VENT ZONES

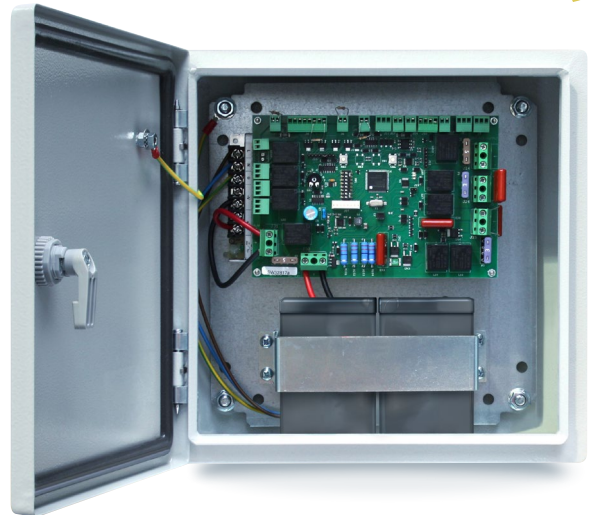

Ventec Weather Station and ancillary devices are compatible with the 24v Ventec 400 Series 4A, 8A, 13A and 20A Control Panels.

## NATURAL VENTILATION CONTROL

### VENTEC WS 400

#### WIND SENSOR

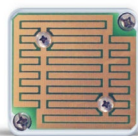

- 24v sensor for the automatic closure of windows and vents in the event of high winds.
- Direct control of smoke ventilation units.
- Complete with mounting brackets.

### VENTEC RS 400

#### RAIN SENSOR

- Compact rain sensor.
- DIP switch for parameter setting.
- Direct control of smoke ventilation units.

### VENTEC CD 400

#### CARBON DIOXIDE SENSOR

- For automated opening/closing of windows and vents to maintain acceptable CO<sub>2</sub> levels.
- Ideal for schools, offices and public buildings.

### VENTEC TC 400

#### THERMOSTATIC CONTROLLER

- Surface mounted thermostat for ambient temperature control – civil and industrial use.
- Direct control of smoke ventilation units.
- Two wire connection.

### VENTEC DS 400

#### RETRACTIVE DAY SWITCH

- 1 or 2 zones.
- Flush wall mounted design.
- Single pole, double throw and sensor off position.

## SMOKE VENTILATION CONTROL

### VENTEC FS 400

#### FIRE OVERRIDE SWITCH

- Manual override switch allowing fire fighters to directly control smoke vents and louvres.
- Open / Close switch controls.

### VENTEC SD 400

#### OPTICAL SMOKE DETECTOR

- Wide operating voltage of 9-33v.
- Point type smoke detector.
- Two wire monitored supply, polarity insensitive.
