

24 HR NEXT DAY DESPATCH

✓ **SMOKE** VENTILATION

✓ **ENVIRO** VENTILATION

✓ **24V** POWER INPUT

✓ **O Range** COMPATIBLE

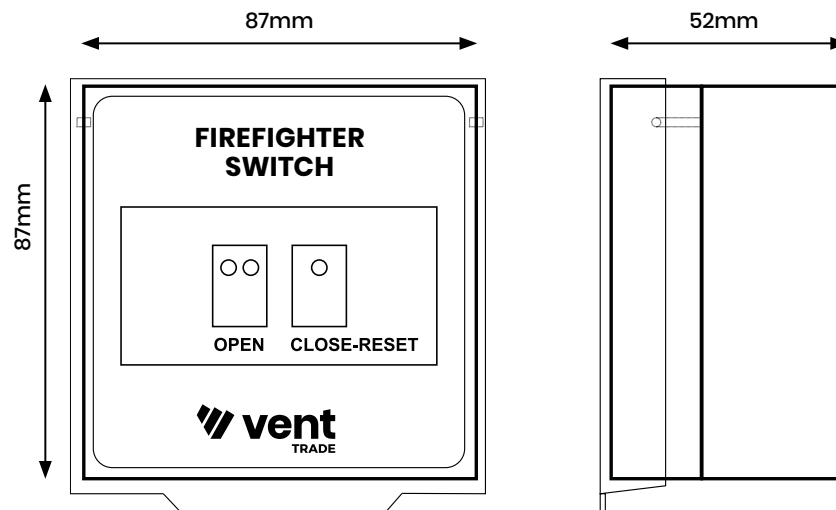

✓ **1ZONE** CONTROL

About This Product

The O Range Firefighter Switch (FS) is a manual override control for smoke ventilation systems allowing firefighters and authorised users to directly open or close smoke vents and louvres as required.

It has been designed to work in conjunction with the O Range Smoke Control Panel for smoke ventilation. It can also be used as a manual switch for daily environmental ventilation purposes i.e. activating a window actuator or vent.

Dimensions

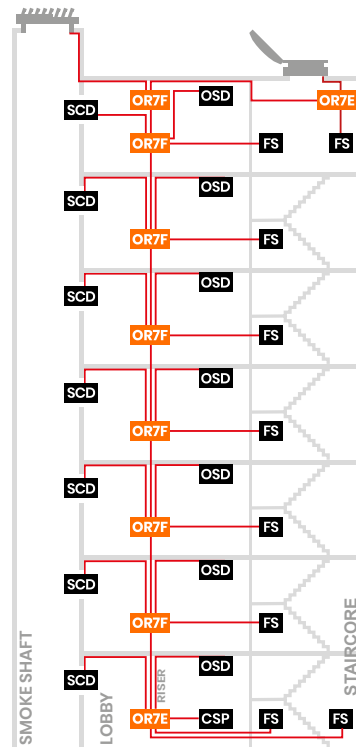

Technical Data

	O Range FS
Operating Voltage	24Vdc
No. Of Cable Cores	7 Core + Earth
Colour	Deep Orange RAL 2011

Installation Example (illustrative only)
